PROJECTS

E-commerce
📅 04/2023   📍 Kozhikode

The E-commerce website project offers a user-friendly platform for buying and selling. It includes secure payment options like credit/debit cards and digital wallets. Customers can browse products, add to cart, and experience a safe, real-time checkout process. Our goal is to provide a seamless and enjoyable shopping experience.

PROJECTS

Freelancing Portal

📅 05/2023   📍 Kozhikode

The Freelancing Portal connects freelancers and clients with WebRTC video/audio calls, chat messaging, and secure payments. Users post jobs, bid, and collaborate seamlessly. Real-time chat enables multimedia sharing, and client reviews build trust. The platform features search, notifications, and an optional escrow system for security. Admin manages operations. We aim to create an efficient and user-friendly freelancing experience.

.

Perfume Static Webpage

📅 06/2023   📍 Kozhikode

As a passionate MERN stack developer, I created a visually captivating and user-friendly static website for "Fragrance Factor," a fictional high-end perfume company. Using HTML, CSS, and JavaScript, I ensured responsive design, subtle animations, and interactive elements. The site showcases the product range and brand story, with strategic call-to-action buttons. This project reflects my creativity, attention to detail, and commitment to delivering exceptional web experiences, showcasing my technical expertise.

.

Tic-Tac-Toe

📅 07/2023   📍 Kozhikode

I designed and developed a feature-rich Tic-Tac-Toe web application using cutting-edge technologies, including Next.js for both frontend and backend, Socket.io for real-time communication, JWT tokens for secure authentication, and MongoDB for data storage. This project enables users to host and join tournaments, play with friends by creating custom rooms, and enjoy a seamless gaming experience. By showcasing my proficiency in full-stack development, real-time functionality, and database management, this project demonstrates my skills in building interactive and scalable web applications, making it a valuable addition to my resume.
